Professional Summary

Full-Stack Developer skilled in Python, Django, FastAPI, React.js, Next.js, TypeScript, MySQL, PostgreSQL, and MongoDB. Experienced in RESTful APIs, authentication, database applications, third-party integrations, Git, Docker, and AI-powered applications.

Experience

Full Stack Developer

MarketBytes, Infopark Cherthala

March 2026 - September 2026

- Led feature development for a 4-member team to build a production-ready law firm management system using **Next.js 16**, **React**, **Python FastAPI**, and **MySQL**.
- Engineered an automated **eCourts portal sync engine** and background scheduler, optimizing database indexing to reduce API response latency by **30%** during load testing.
- Architected granular **JWT-based RBAC** across **4 user roles**, integrated **Razorpay** payment workflows, and containerized microservices with **Docker** for seamless staging deployments.

Technical Skills

- Languages:** Python, JavaScript (ES6+), TypeScript
- Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- Backend:** Django, Django REST Framework (DRF), FastAPI
- Databases:** MySQL, PostgreSQL, MongoDB
- Tools:** Git, GitHub, Jira, Docker
- Concepts:** RESTful APIs, JWT authentication, RBAC, CRUD, WebSockets, API Integration

Projects

LegalTech Platform – Law Firm & Case Management System

Technologies: Python, FastAPI, Next.js 16, MySQL, SQLAlchemy, Alembic, JWT, Google Gemini AI, RapidOCR, OpenCV, Razorpay, WebSockets, Docker

- Engineered a full-stack legal practice management platform using **FastAPI**, **Next.js 16**, and **SQLAlchemy**, integrating **e-Courts India APIs** for CNR tracking and court schedule synchronization.
- Implemented **JWT authentication**, role-based access, **WebSocket messaging**, **Razorpay** payments, automated invoice generation, Google Calendar, and **Docker** deployment.

Dental Care Platform – Clinic Management & Patient Portal System

Technologies: Python, Django REST Framework, Next.js, TypeScript, MySQL, Token Authentication

- Implemented a full-stack dental clinic platform using **Django REST Framework**, **Next.js**, and **MySQL**, featuring online appointment booking, clinic services, doctor information, and treatment galleries.
- Built an administrative dashboard with **Token authentication** and REST APIs for managing doctors, appointments, enquiries, clinic services, and patient data using **React**.

CraftHover – AI-Powered Handicraft Marketplace

Technologies: Python, Django, HTML, CSS, Bootstrap, Hugging Face Transformers, Chart.js, MySQL

- Designed a full-stack handicraft marketplace using **Python**, **Django**, **Bootstrap**, and **MySQL** for product, cart, wishlist, order, and user management.
- Integrated **Hugging Face Transformers** for AI-powered product descriptions and developed **Chart.js** dashboards for sales and product performance analytics.

Education

Python Full Stack Development Training

BLearn Academy

Sep 2025 - Mar 2026

On-site

B.Tech in Computer Science and Engineering

Vimal Jyothi Engineering College

July 2021 - April 2025

Certificates

- Python Full Stack Development Course Certificate** — BLearn Academy
