## Professional Summary

Full Stack Developer with experience in Python, Django, FastAPI, React.js, Next.js, TypeScript, MySQL, and MongoDB. Skilled in developing RESTful APIs, implementing JWT Authentication, building scalable web applications, and optimizing MySQL database performance. Proficient in Git, GitHub, and Agile development.

## Experience

### Full Stack Developer Intern

April 2026 - September 2026

MarketBytes, Infopark Cherthala

- Developed a LegalTech platform serving 5 user roles with secure JWT Authentication and Role-Based Access Control (RBAC).
- Improved API response time by 30% through query optimization and efficient database design.
- Led feature development for a 4-member development team, managing Git workflows, code reviews, and sprint delivery.

## Technical Skills

- **Languages:** Python, JavaScript (ES6+), TypeScript
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Django, Django REST Framework (DRF), FastAPI
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, GitHub Copilot, Jira, Linux
- **Concepts:** RESTful APIs, JWT Authentication, RBAC, CRUD Operations

## Projects

### LegalTech Platform – Law Firm & Case Management System

*Technologies: Python, FastAPI, Next.js, MySQL, SQLAlchemy, JWT, Razorpay*

- Built a full-stack legal tech platform using **FastAPI**, **Next.js**, and **MySQL**, building an automated **e-Courts India API gateway** with **CNR number tracking** to synchronize live hearing dates and court schedules.
- Built an **AI-assisted legal document drafting engine** paired with a Junior-to-Senior advocate approval pipeline, enforcing secure **JWT Authentication** and fine-grained **Role-Based Access Control (RBAC)** across 5 user roles.
- Integrated **Razorpay** for client fee payments and automated PDF invoice generation, synchronized hearing alerts via **Google Calendar API**, and managed database migrations using **Alembic**.

### CraftHover – AI-Powered Handicraft Marketplace

*Technologies: Python, Django, HTML, CSS, Bootstrap, Hugging Face Transformers, Chart.js, MySQL*

- Implemented a full-stack handicraft marketplace using **Python**, **Django**, **Bootstrap**, and **MySQL** for product, cart, wishlist, and order management.
- Built artisan and customer dashboards with product management, user authentication, profile management, order tracking, and admin features.
- Integrated **Hugging Face Transformers** for AI-powered product descriptions and developed analytics dashboards using **Chart.js** to visualize sales and product performance.

## Education

### Python Full Stack Development Training

BLearn Academy

Sep 2025 - Mar 2026

On-site

### B.Tech in Computer Science and Engineering

Vimal Jyothi Engineering College

July 2021 - April 2025

## Certificates

- **Python Full Stack Development Course Certificate** — BLearn Academy
